

# SCRAPPY AND RECYCLED

Recycling plastic and other materials is a great way to make new things. You could use scraps of fabric, bits of paper or even plastic rubbish.

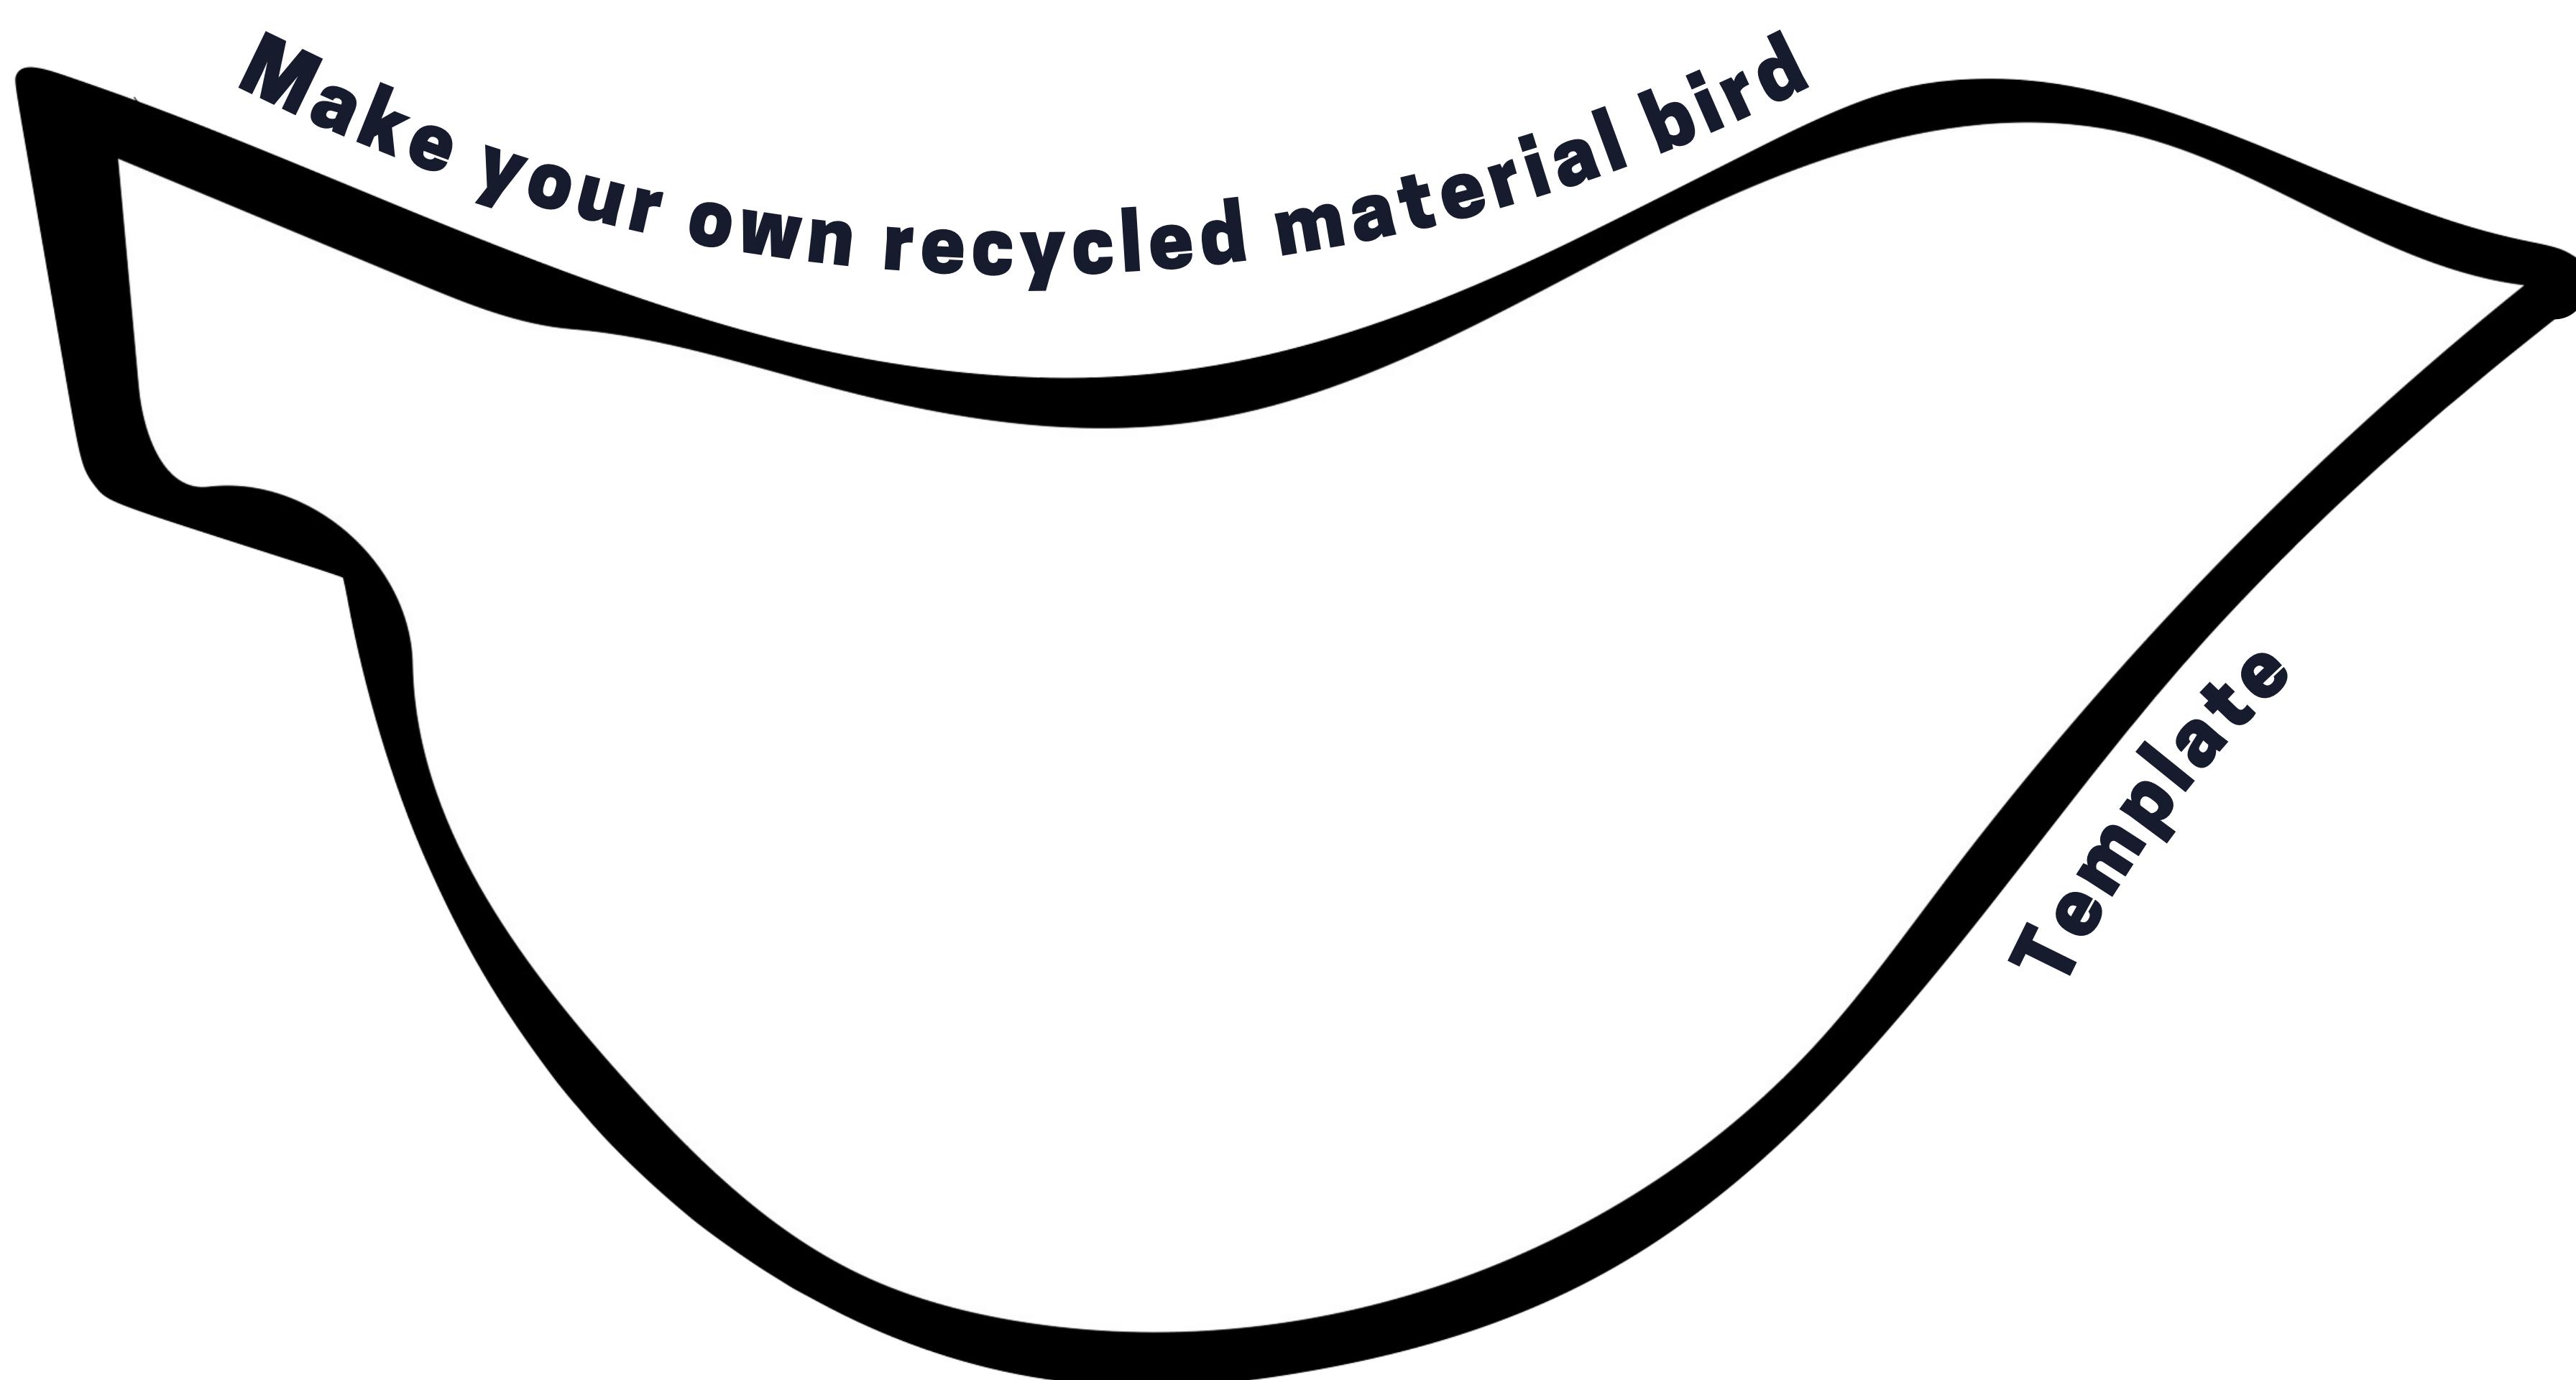

An embroidery made with left over fabric, ribbon and beads

Bird made with wrapping paper and other bits

A weaving made from plastic and other bits of rubbish

Have a look around your house for reusable materials. You could use plastic, old wrapping paper, fabric or cereal boxes to make feathers for your bird.
